

Data Backup, Recovery and Privacy Protection for Financial Services Firms

Financial services firms face increased regulation and investor scrutiny regarding data security. KeepItSafe® understands the pressure your firm faces providing transparency while navigating an ever-changing technological and regulatory landscape. As an ISO 27001 certified solution, we've helped hundreds of financial firms protect their assets (and reputations), reassure their clients, and remain competitive through data security. Looking for a partner that understands how valuable data is to your business and is equipped to handle your sensitive information? **We're here to help.**

KeepItSafe Helps You Exceed Data Privacy Requirements Through:

- ✔ Addressing federal standards and regulations including:
 - SEC Rule 17a-4
 - Sarbanes-Oxley
 - FINRA
 - Graham Leach Bliley
 - PCI DSS
 - SAS 70 and others
- ✔ 256-bit AES encryption at all times at highly secure offsite data center locations (SSAE 16 Type I & II)
- ✔ Storage of data on high-end disk arrays that cannot be changed or tampered with once backed up to our facilities
- ✔ Disk-to-disk backup and retrieval of data
- ✔ Audit trail of all backups and restores
- ✔ Customizable retention rules configured based on your needs
- ✔ Restricted login privileges only allowing access to users with administrative credentials
